

INTRODUCING THE NEW TFM MONITORING SYSTEMS: CQM308* and CQM309**

We are now able to display much more information on a 39 - 42 inch TV screen.

- *Glass
- *Resin
- *Total Weight
- *% of Glass
- *Catalyst Info
- *Current Operator
- *Serial and Part Numbers
- *Material Numbers
- *Target Weights
- *Temperature and Humidity
- *Total Time Sprayed
- *Section and Total Part Progress Bars

Everything can be programmed with our easy to use touchscreen control panel. Such as:

- *Entering Calibration Numbers for various materials
- *Entering Target Weights
- *Entering Operator Names
- *Pausing the Spray Clock(resumes on trigger pull)
- *Choosing a Language (English, Spanish, French)
- *and more...

These new systems come with our Data Collection and Reporting System. These reports are viewable on all devices that have an Internet connection.
